Women's Committee Continues Updated Health Care Search

By Nadine Lefebvre - Women's Committee Chair
Your Women's Committee continues to search for updated health care information on the internet and in print. We have found two links that address thyroid health and related issues and are supplied here if these topics are of interest or concern to you. Please let us know if you find this information useful as we hope to have them included on our PINK LINK:

<http://www.thyroid.org/> and
<http://www.womentowomen.com/default.asp> and select Topic 2 for Thyroid.

Everyone should become knowledgeable about Inflammatory Breast Cancer (IBC), a rare and serious type of breast cancer. You can search the internet for this term or follow this link which offers information

<http://www.nationalbreastcancer.org/about-breast-cancer/inflammatory-breast-cancer.aspx>. Other informative sites are Women's Cancer Network and Komen (*Susan Komen Foundation*) for the Cure.

An informative video about this rare and serious cancer can be viewed on YouTube -it is a television newscaster's investigative findings on this rare and serious cancer. The video offers testimonials as well as current medical information.

This summer, your Women's Committee will order IBC information leaflets that we can mail to your chapter for distribution to members.
