ASEA/AFSCME Local 52 Emergency Leave Bank Operation Procedures (rev. 10/24)

1. The purpose of the Emergency Leave Bank is to provide paid leave for participants who have either personal or family health problems that require their extended absence from work.
2. For purposes of the ELB an emergency must, at a minimum, meet the general FMLA guidelines (29 CFR 825) for a serious health condition. Even though your situation qualifies for FMLA or AFLA, it may not meet the criteria for the Emergency Leave Bank. An emergency is a serious, unexpected situation that requires immediate attention. A situation that is either planned or anticipated is not an emergency.
3. Participants may use the Bank if they meet the requirements in number 2 above, and if their leave balance falls below 75 hours.
 - a. Participants who have exhausted their FMLA entitlement but who remain entitled under AFLA shall have priority.
 - b. Participants who are not eligible for FMLA or AFLA due to the threshold requirement, but who are otherwise eligible, are entitled to use the Bank.
4. Participation in the Emergency Leave Bank is voluntary.
5. Emergency Leave shall only be available to participants of the Bank.
6. Participants may use the Bank if they meet the requirements in number 2 above, and if their leave balance falls below 75 hours.
 - a. A participant may need to contribute up to 7:30 hours to the Bank annually through leave contribution during the first pay period of the leave year (January 1 - December 31).
 - b. Participants who are not eligible for FMLA or AFLA due to the threshold requirement, but who are otherwise eligible, are entitled to use the Bank.
 - c. The 7:30 hours must be deducted before a member is eligible to use the bank.
7. New employees may become participants by notifying the union within 30 days of hire. They will contribute at that time and again during the annual recurring contribution which will begin the following January.
8. Once a member becomes a participant they will continue to participate in the plan unless they notify the Union in writing during the annual enrollment period (November of each year).
9. The Emergency Leave Bank will be managed by the Union Executive Director or his designee.
10. Request for use of the ELB shall be made in person by contacting ASEA Headquarters at (907) 277-5200 (Option 2).
11. If a participant does not use their approved Emergency Leave for the immediate emergency the leave will be returned to the Bank.
12. Contributions become the property of the Bank.
13. Article 26.13 of the current Collective Bargaining Agreement (CBA) is incorporated in its entirety as policy of the Union.
14. Members of the Bank may be eligible to use up to 37:30 hours per leave year.
15. If the balance of the bank (in days) falls to an amount equal to $\frac{1}{2}$ the number of participants the goal will become that of preserving the health benefits of those who use the Bank.
